

Dear participant,
You now have the opportunity to provide feedback on the new evaluation scheme and therefore contribute to its further development from the perspective of the applicant.
There are 6 short questions with free text answer fields. Please try to be as specific as possible.
Thank you!

Consent Declaration for Data Collection and Processing

With submitting this online survey, I declare my consent that personal data may be collected, anonymized, recorded, and processed on electronic data carriers within the scope of this study by the experimenter.

I am aware that the raw data will be stored locally for a minimum of 10 years. I also agree that the study data and results may be published in aggregated and anonymous form, which does not allow any conclusions to be drawn about my person (e.g., on the Open Science Framework or in scientific presentations). All data and files are collected and processed solely for scientific purposes (see consent declaration). Other scientific research institutions are considered potential recipients of the data. This also applies to research institutions in so-called third countries (countries outside the EU, e.g., the USA), provided they commit to treating the data in accordance with the GDPR.

We will not share your individual answers and only publish aggregated data to the public. No identification of single individuals will ever be possible.

I am aware that I can withdraw my consent at any time without giving reasons and without any adverse consequences for me, and I can request the deletion of the data collected about me. However, I understand that such deletion will no longer be possible once the data has been anonymized.

I am aware that my information will be treated in accordance with §4 BDSG (Federal Data Protection Act). The responsible person for this study and data collection is Dr. Felix Schönbrodt (felix.schoenbrodt@psy.lmu.de). You can also contact the data protection officer at the Ludwig-Maximilians-Universität München (Behördlicher Datenschutzbeauftragter der Universität München, Geschwister-Scholl-Platz 1, D-80539 München, https://www.uni-muenchen.de/einrichtungen/organ_lmu/beauftragte/dschutz/index.html).

I am aware that I have the right to lodge a complaint regarding the processing of my personal data with a data protection supervisory authority (Bayerischer Landesbeauftragte für den Datenschutz, Postfach 22 12 19, 80502 München, poststelle@datenschutz-bayern.de).

Continue

1) Have you ever applied for a professorship position? Please list all applications with the level (e.g., „W1, W2, W3“), no more information is necessary.

(If you have not applied yet, please enter „none“ into the field. If you don't want to answer the question, leave the answer empty. Then we will treat it as a missing value.)

2) Please list all Listenplätze that you obtained in the applications listed in question 1. Please list each Listenplatz in a separate line.

(If you have applied but received no Listenplatz yet, please enter „none“ into the field. If you don't want to answer the question, leave the answer empty. Then we will treat it as a missing value.)

3) How would you "game" the new metrics?

4) Are any indicators problematic from your point of view and why?

5) Are aspects missing in the scheme? What should be assessed to judge research performance beyond the indicators in the scheme?

(Keep in mind that this scheme is only designed to evaluate the research of candidates (i.e., not their teaching abilities, societal impact, etc.)

6) Do you think it's generally good that emphasis is now being placed on these aspects?

Please provide your email address here, so we can combine your feedback with our data. We will not save your email address, it will be deleted.

Send feedback.
